

A Letter to Students

Dear AP Student,

Welcome to AP Chemistry. This is a fast-paced course for students who consistently work hard, pick up ideas quickly and manage their time effectively. Hard work and self-determination will help you succeed in this class. I look forward to a great year together. Have a great summer.

Sincerely,
Dr. Stover

Supplies

These are required materials to bring to school with you **every day** starting on the first day of school, **unless assigned**.

- Scientific Calculator
- 2-inch binder for chemistry only for both semesters or 1 inch for each semester
- Red pen, Highlighters
- Topic Review (assigned)
- ChemQuest worksheets (assigned)

About the Summer Work

The summer work is a review of general chemistry. Some of you took it last year, two years ago or during the summer if this was offered, or have not had the opportunity to take general chemistry at all. AP chemistry is a whole new set of information. It is important that you have a good background knowledge on the topics on this summer work. These are quick review questions. Please take the time to work and get the practice you need. **You are an advanced student in an advanced class, please do not fall behind. Use my class website to help with anything you need especially if you missed taking general chemistry or if it has been a while to refresh your knowledge. There are videos on the lessons.**
