

## A Letter to Students

Dear AP Student,

Welcome to AP Chemistry. This is a fast-paced course for students who consistently work hard, pick up ideas quickly and manage their time effectively. Hard work and self-determination will help you succeed in this class. I look forward to a great year together. Have a great summer.

Sincerely,  
Dr. Stover

## Supplies

These are required materials to bring to school with you **every day** starting on the first day of school, **unless assigned**.

- Scientific Calculator
- 2-inch binder for chemistry only for both semesters or 1 inch for each semester
- Red pen, Highlighters
- Unit Module (assigned)
- POGIL Activity/ChemQuest worksheets (assigned)
- Homework worksheets (available on class website –password required)

## About the Summer Packet

The packet is a review of general chemistry. Some of you took it last year, two years ago or during the summer. AP chemistry is a whole new set of information. It is important that you have a good background knowledge on the topics on this packet. These are quick review questions. Please take the time to work and get the practice you need. **You are an advanced student in an advanced class, please do not fall behind.**

## Instructions:

Go to [docstover.org](http://docstover.org), click on AP Summer Work. Use the “Review” materials for practice to refresh your knowledge of basic chemistry. You do not need to turn in the “Review” materials. Print only materials labeled “Work” and answer them. Turn them in on the first day of school.
